Find it hard to remember to take your medication? Medication organisers make it simple

When it comes to medication, there are times when it's challenging to remember when and how to take a dose. These include caring for ageing seniors, the period after a return from hospital, when dealing with prescriptions from more than one healthcare professional or managing multiple medications and vitamins. It's good to know there's an easier way to ensure you take the right dose at the right time. Ask your TerryWhite Chemmart Pharmacist for a medication organiser.

What is a medication organiser?

It's a pack with each dose organised in an easy-to-use, easy-to-follow calendar style, allowing you to take the right dose at the right time. It's labelled with your details, including medication type, quantity and dose times, and has your name clearly marked, making it easy to identify your organiser at a glance.

Never miss a dose. Let us do the packing for you.

Medication organisers are:

Simple

We pack your medications or vitamins into individual doses. Then, they're ready for you to collect on a weekly, fortnightly or monthly basis. We can also organise home delivery if you require.

Safe

Medications are securely packed and personally labelled. This ensures you take the right dose at the right time, avoiding the risk of missed doses or overdoses.

Convenient

Your medication organiser is small, discreet and easy to use. Take it wherever you go, including holidays or overnight trips.

Switch to a simpler way of managing your medications and see each dose at a glance, with a medication organiser. Speak to your local TerryWhite Chemmart Pharmacist about how to begin today.

8 promises to make this winter

Winter has a habit of creeping up on us! Let's get ahead this year by planning a winter defence toolkit. Will you make these promises to yourself?

- 1. Be nourished:** Strengthen your body's defences with immunity-boosting foods. Look for items rich in antioxidants, protein, fibre, essential vitamins (B, C, D, and E) and healthy fats.
- 2. Move frequently:** Combat the winter blues by framing exercise as a habit for health and resilience. Try wet weather plans such as indoor swimming, video workouts or walking catch ups with a friend at the shopping centre.
- 3. Sleep well:** There's a link between proper sleep and good immune function.¹ During rest, the body releases cytokines, essential proteins that fight inflammation and infection.² Make quality sleep a priority for overall well-being.
- 4. Understand medications:** Familiarise yourself with the proper usage and dosage of medications like paracetamol and anti-inflammatories to effectively address potential health issues.
- 5. Reduce allergens:** Reduce dust mites and mould by sealing draughts, ventilating wardrobes and washing soft toys and winter bedding.
- 6. Keep vaccinated:** Ensure your vaccinations, including those for flu and COVID-19, are up-to-date to maximise their effectiveness.
- 7. Emergency contacts:** Keep your Pharmacist, GP, home doctor service and specialists' numbers within reach.
- 8. Be a team:** Know which friends, family and neighbours you can turn to when ill.

² <https://www.health.qld.gov.au/news-events/news/7-amazing-things-that-happen-to-your-body-while-you-sleep>

Are these in your winter first-aid cabinet?

Ask your Pharmacist about these items to support your family over winter.

- Pain relievers (tablets, gels and creams)
- Anti-inflammatories
- Chest rubs
- Oral rehydration solutions
- Nasal decongestants (tablets or sprays)
- Saline nasal spray
- Vitamins and minerals
- Thermometer
- Tissues and hand sanitiser

Vaccination station

Booking your Flu and COVID-19 vaccinations together:

- ✓ Is safe
- ✓ Produces a good immune response
- ✓ Saves time
- ✓ Ticks two things off your winter defence list!

Scan to book

Did you know this ... about flu vaccination?

1. There is no live virus in the vaccination (so you can't catch the flu from being vaccinated)
2. Flu vaccination is safe for pregnant women at all stages of pregnancy*
3. The composition of the flu vaccination changes every year to keep up with the constantly mutating flu virus

Source: * <https://www.health.gov.au/influenza-vaccination-in-pregnancy>

Your 10-tip plan for sick children

Having sick kids is an unpleasant experience for all involved. It's helpful to think ahead about how you'll plan.

Here's what we recommend.

1. Expect illness

Mental preparedness can help when a situation does occur. Remember to just take the very next step and remind yourself you've got through this before.

2. Handwashing

You know the drill: regularly wash with soap and water or hand sanitiser, and teach little ones to cover their mouths and noses with a tissue or their elbow when coughing or sneezing.

3. Stay informed

Keep an eye on local health advisories and be aware of any outbreaks or increased flu or COVID-19 activity in your area.

4. Medical certificate

Get an absence from work certificate from your TerryWhite Chemmart Pharmacist to cover sick or carer's leave. Walk-ins are available, no appointment necessary.

5. Medicines

Make sure you have adequate supplies for children's cold and flu, pain and allergies. Ask your Pharmacist if you're unsure what to give.

6. Keep it to yourself

Educate your children about the importance of not sharing personal items like utensils, lip balm and water bottles.

7. Telehealth

Your TerryWhite Chemmart Pharmacist can help you get a script or consultation with a doctor 24/7. Ask your Pharmacist how.

8. Healthy diet

Serve immune-boosting foods like citrus fruits, yogurt and green leafy vegetables in juices or snack plates.

9. Low expectations

At this time it's OK to just get through. More screen time and less interesting evening meals can be a necessary consequence of caring for a sick child.

10. Trust your gut

See your doctor if your child is unusually lethargic or irritable, develops a rash, has trouble breathing, can't or won't drink fluids, cannot keep fluids down, isn't passing urine or has a recurring fever.³

BioCeuticals™ Ubiquinol BioActive 150mg

Want to support a healthy heart and healthy cholesterol?

- Helps maintain healthy blood lipids and supports healthy cholesterol.
- Supports blood vessel and cardiovascular system health.
- Maintains energy levels and supports energy production.
- An antioxidant that helps reduce free radicals formed in the body.
- Ubiquinol is the active form of coenzyme Q10 (CoQ10).
- We naturally make CoQ10, however as we age, we have a reduced ability to make what we need for optimum health.

Dose: Take 1 capsule once a day, or as professionally prescribed.

Frequent re-application or use in accordance with directions is required for effective sun protection.

We care for the skin you're in

Get glowing!

Radiant skin suggests healthy, glowing skin – not skin which is 'perfect' or free from fine lines, occasional blemishes or birth marks.

Support your skin from inside out by eating well, drinking plenty of water, not smoking, limiting stress and getting quality sleep. Support it from the outside in with a skincare routine you can repeat daily.

Here are our tips for glowing skin.

1. **Q+A** Grapefruit Cleansing Balm 125ml
2. **Natio** Treatments Radiant Skin Exfoliating Wipes 30 pack
3. **Olay** Regenerist Micro-Sculpting Cream 50g
4. **Ego QV** Nurturing Night Cream 50g
5. **A bit Hippy** Face Oil 25ml
6. **The Quick Flick** Quick Glow Whipped Gradual Tan Body Moisturiser Mousse 260g
7. **Australian Glow** Self Tanning Drops With Hyaluronic Acid 30ml
8. **Natio** Mineral Pressed Powder Bronzer Sunswept

Cleanse

Fully cleanse your face – especially at night – to thoroughly remove pore-clogging impurities, makeup and pollutants.

- ① [Tip!] Look for a **100% natural cleanser** which is hydrating, calming and refreshing; plus cruelty-free and vegan

Exfoliate

Two or three times a week, further buff your skin for extra brightness, being careful with the fine skin of the eye area.

- ② [Tip!] Try ready-to-use, pre-soaked exfoliating wipes for a **non-abrasive option**

Moisturise

Use day and night moisturisers to boost the health of the skin barrier and protect against dehydration 24/7.

- ③ [Day] **Targets** dryness, minimises the appearance of fine lines and uneven texture
- ④ [Night] Suitable for **sensitive skin**; improves skin elasticity, fine lines and helps support the skin barrier

Face oil

Unlike water-based moisturisers, face-oils have emollient and occlusive properties. This means they both provide deep hydration and lock it in for hours.

- ⑤ [Tip!] An antioxidant-rich option, with rosehip to promote skin regeneration, Vitamin C to balance the complexion and Vitamin E to **nourish the skin**

Self-tan

Self-tanning options have evolved over the years and are quick and easy to apply. (Ensure you take additional precautions to protect your skin from the harmful effects of the sun.)

- ⑥ [It's easy!] **2-in-1 moisturiser** and **self-tan**, with hydrating glycerin and vitamin E
- ⑦ [Daily use!] Try **self-tan drops** with natural ingredients, for the face and décolleté

Bronzer

Give your complexion warmth and a natural-looking radiance. Apply after foundation and moisturiser, waiting a while between products to avoid streakiness.

- ⑧ [Sun-kissed!] A vegan-friendly, cruelty-free option with a **devy finish**
